On The Spot authorized renewal stations are emission and/or safety inspection stations that offer one-stop inspection and registration renewal services. They are authorized by the Utah Division of Motor Vehicles to renew your vehicle, and give you a decal with an updated registration. They may charge an additional fee for this service.

Note: ALL listed stations can inspect and register street vehicles. In addition, some stations can also register certain offroad vehicles and boats. The "Types" column lists these addtional services as follows:

- A = All terrain and offroad vehicles
- B = Boats
- S = Snowmobiles
